

BRADEN OGNOSKIE

FULL STACK SOFTWARE DEVELOPER

Security Clearance: Secret(Active)

(210) 500-0386 · bradenjognoskie@gmail.com · [LinkedIn](#) · [Github](#) · [Portfolio](#)

SUMMARY

Full Stack Developer with a passion and solid foundation in front-end languages, libraries, and frameworks. Experienced in creating intuitive web applications and keen to grow within a collaborative team environment. Dedicated to continuous learning and applying emerging technologies to solve real-world challenges.

TECHNICAL SKILLS

Languages/Technologies: HTML5 - CSS3 - SASS - SCSS - Bootstrap - Java Script - ES6 - AWS - Git - Reactjs - Rest API - APIs -Java- User interface - Spring Boot - SQL Database - Object-oriented programming- Back-end - Debug - Data integrity- UI/UX design - Responsive design - Front-end development- Version control systems -Responsive web design -Workflows-Server-side -Automation- Node.js-Programming languages- Performance tuning- Debugging - Design patterns- Project development- Data modeling- Application design- Agile methodology-User experience- Web accessibility-Cross-browser compatibility

SOFT SKILLS

Skills: Collaborative - Enthusiasm - Verbal and written communication - Teamwork - Critical thinking - Integrity - Digital experience - Service-oriented -Resilience - Solving problems- Team Player - Professionalism - Effective Communicator - Solve complex problems - Strong problem-solving skills - Learning new technologies -Agility - Committed - Problem resolution - Compassion - Public safety - Cross-functional team -Attention to detail -Analytical Skills - Innovative - Adaptable-Constructive feedback - Flexible - Innovation-Inquisitive- Accuracy-Collaborating-Follow instructions

Exposure to: Agile Management Tools - KanBan for Workflow - Project Management Tools - Github Pages - NPM - Scrum Stand Up - Documentation - Spring Framework - Agile Development - Search Engine Optimization

EDUCATION

Codeup

Certification of Completion

May 2023 - Oct 2023

This 5-month coding boot camp teaches full-stack software development through 670 contact hours of hands-on technical training (20% more time than 4-year degree majors require). Students hone skills in modern web technologies, computer science, software engineering, and application architecture while gaining project experience with pair programming, debugging, troubleshooting, agile project management, user stories, feature lists, UI/UX, wireframing, and relational database design.

DEVELOPMENT PROJECT

Ad-lister Project Name: [Repository](#)

A simplified version of Craigslist that allows users to post and browse advertisements. The project provides a functional and user-friendly platform for posting and browsing advertisements, while also providing me with experience in web development, database management, and software testing.

Skills: Agile methodology, Paired programming, HTML, CSS, JavaScript, Java, MySQL, and jQuery.

EXPERIENCE

Wilson County ESD #3

Emergency Medical Technician- Basic

Nov 2021 - May 2023
