## Full Stack Developer

Full Stack Developer with a passion and solid foundation in front-end languages, libraries, and frameworks. Experienced in creating intuitive web applications and keen to grow within a collaborative team environment. Dedicated to continuous learning and applying emerging technologies to solve real-world challenges.

## Clearance

---

Active DoD Secret Security Clearance

## TECHNICAL SKILLS

---

HTML5 - CSS3 - SASS - SCSS - Bootstrap - Java Script - ES6 - OOP - AWS - Git - Reactjs - Rest APIs - J2EE -Java- User interface - Spring Boot - SQL - Microservices- Back-end - Debug - Data integrity- UI/UX design - Responsive design -Workflows- Front-end web development- Product management - Business Solutions -Application design -System engineering -Research- Agile software development- Employee engagement - Enterprise architecture- Node.js- Pair programming- Cross-browser compatibility- Analytics- Debugging - Computer engineering- Design patterns- Design tools-BDD-TDD- Data warehouse

**Exposure to:** Agile Management Tools - KanBan for Workflow - Project Management Tools - Github Pages - NPM - Scrum Stand Up - Documentation - Spring Framework - Agile Development - Search Engine Optimization

## SOFT SKILLS

---

Collaborative - Enthusiasm - Verbal and written communication - Teamwork - Flexibility - Reliable - Integrity  - Digital experience - Teamwork skills-Personal integrity - Fast paced - Self-motivated - Team Player - Professionalism - Effective Communicator - Resiliency - Strong problem-solving skills - Outreach - Resolves problems -Coaching - Committed - Problem resolution - Compassion - Mentoring - Highly Motivated - Cross-functional team -Attention to detail -Analytical Skills - Innovative - Adaptable- Accountability - Flexible - Innovation- Dependable- Accuracy-Collaborating

# PROJECTS

**Ad-lister Project Name: [Repository](#)**
A simplified version of Craigslist that allows users to post and browse advertisements. The project provides a functional and user-friendly platform for posting and browsing advertisements, while also providing me with experience in web development, database management, and software testing.
**Skills**: Paired programming, HTML, CSS, JavaScript, Java, MySQL, and jQuery.

**Weather Map Project Name: [Repository](#)**
A weather application that gives the forecast for locations around the world. The application is designed with a clean and intuitive interface that allows users to quickly and easily access the information they need. The application makes use of the latest weather data to provide hourly and daily forecasts for a variety of metrics, including temperature, precipitation, wind speed, and humidity. **Skills**: HTML, CSS, JavaScript, jQuery, AJAX, OpenWeatherMap API, and Individual programming

**Movie Project Name: [Repository](#)**
Designed and developed a web-based movie database. Utilized RESTful API calls to enable CRUD (create, read, update, delete) functionality for dynamically rendered elements, including the use of modals to allow users to delete, add, and edit movies. Users can select individual checkboxes to delete multiple movies at once and edit movie details by title and year.
**Skills**: Paired programming, JavaScript, HTML, CSS, jQuery, OMDb API

# PROFESSIONAL EXPERIENCE

**Wilson County ESD #3**
*Emergency Medical Technician- Basic*                                                       Nov 2021 - May 2023

- Provided basic life support and multiple treatment options to countless patients in a critical life threatening state.
- Been a part of multiple cardiac arrests, pediatric arrests, and critical trauma calls.
- Assisted ALS partners on multiple RSI/DSI treatments for patients in respiratory arrest.
- Administered a variety of different medications.
- Experienced in placing IOs ( intraosseous access) and IVs (intravenous access).
- Able to perform in high stress environments and adapt to any changes in patient care.
- Maintained and in charge of thousands of dollars in equipment with no loss.
- Extensive knowledge on the pathophysiology and physiology of multiple diseases and life threatening injuries.

# MILITARY EXPERIENCE

**U.S. Army**
*Machine Gunner / Sniper Team Leader*                                                       A*ug 2017- Dec 2020*

- Instructed personnel on ways to increase rifle marksmanship efficiency while proper use of PPE.
- Maintained half a million dollars of equipment with no loss.
- Provided protective overwatch for allied forces and delivered long range precision fire on key targets.
- Able to conduct reconnaissance and collect intel within enemy controlled territories.
- Maintained sniper rifles, machine guns, pistols and hand grenades while keeping accountability for all weapons and their BII.
- Quickly promoted to leadership position in recognition of strong work ethic and demonstrated ability to manage and lead a team.
- Worked with foreign armies (Korean, Thai, and the Philippine) both training foreign soldiers and building relations.
- Conducted security operations in a foreign country.

# EDUCATION

**Codeup**

*Certification of Completion*                                             May 2023 - Oct 2023

This 5-month coding boot camp teaches full-stack software development through 670 contact hours of hands-on technical training (20% more time than 4-year degree majors require). Students hone skills in modern web technologies, computer science, software engineering, and application architecture while gaining project experience with pair programming, debugging, troubleshooting, agile project management, user stories, feature lists, UI/UX, wireframing, and relational database design.
